# **Teachers Prepared**

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Academic Major

#### THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

### **Teachers Prepared by Subject Area**

Please provide the number of teachers prepared by subject area for academic year 2019-20.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

#### What are CIP Codes?

No teachers prepared in academic year 2019-20

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<a href="https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55">https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55</a>).

### **Teachers Prepared by Academic Major**

Please provide the number of teachers prepared by academic major for academic year 2019-20. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.
• Yes No

- 7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.
  - Yes
  - No
- 8. Describe your institution's most successful strategies in meeting the assurances listed above:

General education candidates obtain training in the areas addressed in the previous items. All alternate licensure candidates take an introductory education class, educational psychology class, and a course addressing exceptional children. Pre-student teaching field experiences in courses help prepare candidates for working with all students. Topics on diversity, special education, ENL, and students from a variety of SES, are addressed for elementary candidates in the methods class and two classes involving literacy and literacy assessments. These topics are addressed for secondary candidates in the general methods class. Our candidates are required to have clinical experiences in diverse schools as mentioned above. In addition, the issues are addressed during the student teaching experience.

### **Annual Goals: Mathematics**

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

work with them to move into our TESOL program after obtaining initial licensure. In addition, this programs are promoted with communications with current TTT students and other teachers and ELL Directors in the state so they are aware of the opportunity.

### **Review Current Year's Goal (2020-21)**

7. Is your program preparing teachers in instruction of limited English proficient students in 2020-21? If no, leave the next question blank.

8. Describe your goal.

### Set Next Year's Goal (2021-22)

9. Will your program prepare teachers in instruction of limited English proficient students in 2021-22? If no, leave the next question blank.

10. Describe your goal.

### **Assessment Pass Rates**

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

### **Use of Technology**

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
  - Yes
- b. use technology effectively to collect data to improve teaching and learning
  - Yes
- c. use technology effectively to manage data to improve teaching and learning
  - Yes
- d. use technology effectively to analyze data to improve teaching and learning
  - Yes
- 2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Technology is an ever-changing resource for the educator today, and Taylor works to prepare teachers to integrate technology effectively into curricula and instruction and to use technology to increase student learning. All candidates are required to develop a student teaching electronic portfolio by which candidates document mastery of InTASC principles. One requirement of the student teaching portfolio is to demonstrate the effective use of technology in the classroom in a way that enhances student learning. Another requirement is to document, chart, and analyze P-12 student learning using data, using the results in a reflective context to allow the candidate to improve instruction. Because our program is completely online, technology expertise to some degree is essential. All courses in the program implement technology, with specific emphasis placed within the elementary and secondary methods classes, in which candidates are expected to develop and apply technology, including digital resources such as webquests, digital teaching presentations, and apps.

### **Teacher Training**

- 1. Provide a description of the activities that prepare general education teachers to:
  - a. Teach students with disabilities effectively

All alternative licensure candidates are introduced to the concept of P-12 students with disabilities in TTT 510 Introduction to the Education Profession. Further concept development occurs in TTT 520 Educational Psychology. All candidates take SED 520 Exceptional Children, which addresses students with disabilities, gifted and talented students, and culturally and linguistically diverse students. Activities include chapter readings, test items, accommodations lesson plan, videos of special education teachers presenting information on needs, accommodations, instructional techniques, and behavior of students in special education. Candidates are required to write a narrative summary of an interview of a teacher who works with students with special needs or a parent of a student with special needs. There are numerous other assignments in Exceptional Children, including IRIS modules of case studies and assessing students with special needs. Candidates in SED 520 complete a disability simulation and write a paper on their experiences. Special education topics are also addressed in the elementary program in the methods class, in addition to the two literacy and assessment classes. In the secondary program, special education topics and issues are also addressed in the general methods class.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Candidates in SED 520 Exceptional Children read about the process of creating an IEP, what is included in an IEP, the roles of the IEP team members, and view videos of special education teachers who give advice on working as a member of an IEP team. Candidates submit an assignment on the IEP process, and answer test questions on the videos and chapter readings.

c. Effectively teach students who are limited English proficient.

All alternative licensure candidates are introduced to the concept of P-12 students who are culturally and linguistically diverse in TTT 510 Introduction to the Education Profession. Further concept development occurs in TTT 520 Educational Psychology. In addition, there are readings and assignments in SED 520 Exceptional Children. Activities include chapter readings, test items, a multicultural lesson plan, reflections on culturally responsive teaching, and readings and an assignment on restorative justice. Candidates complete IRIS modules on working with students who are culturally or linguistically diverse. Topics on working with limited English proficient and culturally diverse students are also addressed in the elementary program in the methods class, in addition to the two literacy and assessment classes. In the secondary program, topics and issues on working with students who are limited English proficient and culturally diverse are also addressed in the general methods class.

2. Does your program prepare special education teachers?

Yes

No

If yes, provide a description of the activities that prepare special education teachers to:

a. Teach students with disabilities effectively

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the <i>Individuals with Disabilities Education Act.</i>
c. Effectively teach students who are limited English proficient.

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Taylor University began the Transition to Teaching program in fall 2002 in response to a state mandate for every teacher training institution in the state of Indiana to develop an alternative path to teacher education. It was housed on the Taylor University Fort Wayne campus. When Taylor University's Board of Trustees closed the Fort Wayne campus on May 31, 2009, the Transition to Teaching program was brought to the Taylor University Upland campus to be housed in the Education Department. In 2011, the Indiana State Legislature changed the mandate to optional for providing a Transition to Teaching program for every teacher training institution in the state of Indiana. Because TTT has been a growing, successful program at Taylor University, the university decided to continue offering it as an alternative path to teacher licensure. Beginning with the fall 2009 semester, the Transition to Teaching program became an online program at the graduate level. The program is offered through Taylor University Online. Responsibility for the technology segment of the program rests with the Director of Taylor University Online while responsibility for the education component of the program rests with the Director of Transition to Teaching through the Education Department on the Upland Campus. Taylor University is proud to offer three licensure tracks: elementary (K-6), secondary (5-12), and All-Grade (P-12). Program requires are as follows: Elementary Track Requirements for admission: Baccalaureate degree from an accredited postsecondary educational institution with a grade point average of at least 3.0 on a 4.0 point scale; or • Both a baccalaureate degree from an accredited postsecondary educational institution with a grade point average of at least 2.50 on a 4.0 point scale, and five (5) years of professional experience; or • If GPA is below 2.50, need both a baccalaureate degree from an accredited postsecondary educational institution and proof of passing state approved content area examination(s) in the subject area (four elementary generalist tests) Courses The courses below are required for this 24-credit hour Transition to Teaching program. All assignments are commensurate with graduate level work. TTT510 and TTT520 are prerequisites for the remaining courses, whereas TTT590 is the capstone and must be completed last.
