WORK EXPERIENCE

REGISTERED NURSE

Ball Memorial Hospital

2017-Current

terah_coffee@taylor.edu

Compassionate and dedicated Family Nurse Practitioner, bringing 11 years of diverse registered nurse experience across medical-surgical, progressive care, critical care, emergency, and trauma settings. Throughout my nursing career, I have developed strong clinical judgement, adaptability, and the ability to provide calm, patient-centered care in both high-acuity and primary care environments. I am deeply committed to delivering empathetic, evidence-based care that addresses the whole person while promoting health, prevention, and wellness.

EDUCATION

INDIANA WESLEYAN
UNIVERSITY

05/2026 • Master of Science: Primary Care
Nursing, FNP Specialization

IVY TECH STATE
COLLEGE

08/2014 • Associate of Science: Nursing

• Cardiac Intensive Care (2/2025-Current)

- Provided one on one care to fresh cardiac arrests, balloon pumps, rapidly decompensating patients, and recovery of post-op open heart patients.
- Management in vents, titratable medication drips, and operation of specialty machines.
- Specialty trained to recover and manage the care of cardio-thoracic surgery patients directly from the operating room specifically including post-operative CABG and valve replacement patients.
- Recognizing early signs of decompensation.
- Monitored patient condition by interpreting and tracking EKG readings, identifying irregular telemetry readings and updating team members on changes in stability or acuity.
- Managed quality care for patients with heart failure, end-stage renal disease and coronary artery disease.
- Educated family members and caregivers on patient care instructions.

• Rapid Response Nurse (11/2021-Current)

- Provide critical care expertise for patients who demonstrate signs of imminent clinical deterioration.
- Intervening to prevent harm when nursing staff is urgently concerned about a patient's well-being.
- Ability to work in highly dynamic environment and to quickly respond to urgent calls anywhere in the acute care facility.
- Communication and collaboration with physicians and nurses.

• Resource Nurse (10/2022- 2/2025)

- Organized and managed care of patients undergoing various therapies and procedures on various floors.
- Worked closely with ER physicians in stabilizing patients with various life-threatening conditions.
- Provided skilled, timely and level-headed emergency response to critically ill patients.
- Collaborated and adapted to each floor and their specialty to provide excellent care to the patients within.
- Facilitated therapeutic communication, conflict resolution and crisis intervention by redirecting negative behaviors and helping patients regain or improve coping abilities.
- Quickly responded to situations impacting safety and security to unit, actualizing crisis prevention interventions to control and de-escalate situations.

• Cardiac Intensive Care Unit (11/2019 - 10/2022)

- Stated above

• Intensive Care Unit (02/2017- 11/2019)

- Managed the holistic care of up to three critically ill patients with skills including the managing of titration drips, ventilators, intracranial pressure monitoring devices, and hemodynamic monitoring.
- Provided one on one focused attention for patients on target temperature management, continuous renal replacement therapy, post ventriculostomies, and newly diagnosed strokes receiving TPA.
- Administered medications and treatment to patients and monitored responses while working with healthcare teams to adjust care plans.
- Educated patients, families and caregivers on diagnosis and prognosis, treatment options, disease process, and management and lifestyle options.
- Trained new nurses in proper techniques, care standards, operational procedures, and safety protocols.
- Conferred with physicians to discuss diagnoses and devise well-coordinated treatment approaches.
- Educated family members and caregivers on patient care instructions.
